NIGER'S EXPERIENCE IN MAINSTREAMING CLIMATE CHANGE INTO NATIONAL PLANNING

BAKO SAFI SOLANGE
Climate Change Advisor, CNEDD
Prime Minister's Office

INSTITUTIONAL FRAMEWORK

- CNEDD established in 1996 with an executive secretary;
- PNEDD = Agenda 21 in 2000 ;
- Climate Variability and Change in 2003;
- NAPA in 2006 ;
- V&A Studies of the most vulnerable sectors
- National Climate Change Policy in 2013.
- INDC in 2015

CABINET DU
PREMIER MINISTRE

CONSEIL NATIONAL DE
L'ENVIRONNEMENT POUR UN
DEVELOPPEMENT DURABLE

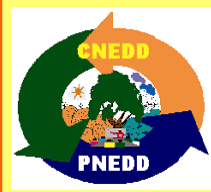

PROGRESS IN MAINSTREAMING CC

CC Mainstreaming into national strategic frameworks at national, regional and local levels, such as:

- Approx. 100/226 municipalities have mainstreamed CC into their local development plans
- Economic Program and Social Development
- National Biological Strategy
- National Livestock Strategy
- National Health Strategy;
- National Water Strategy;
- National Transportation Strategy.

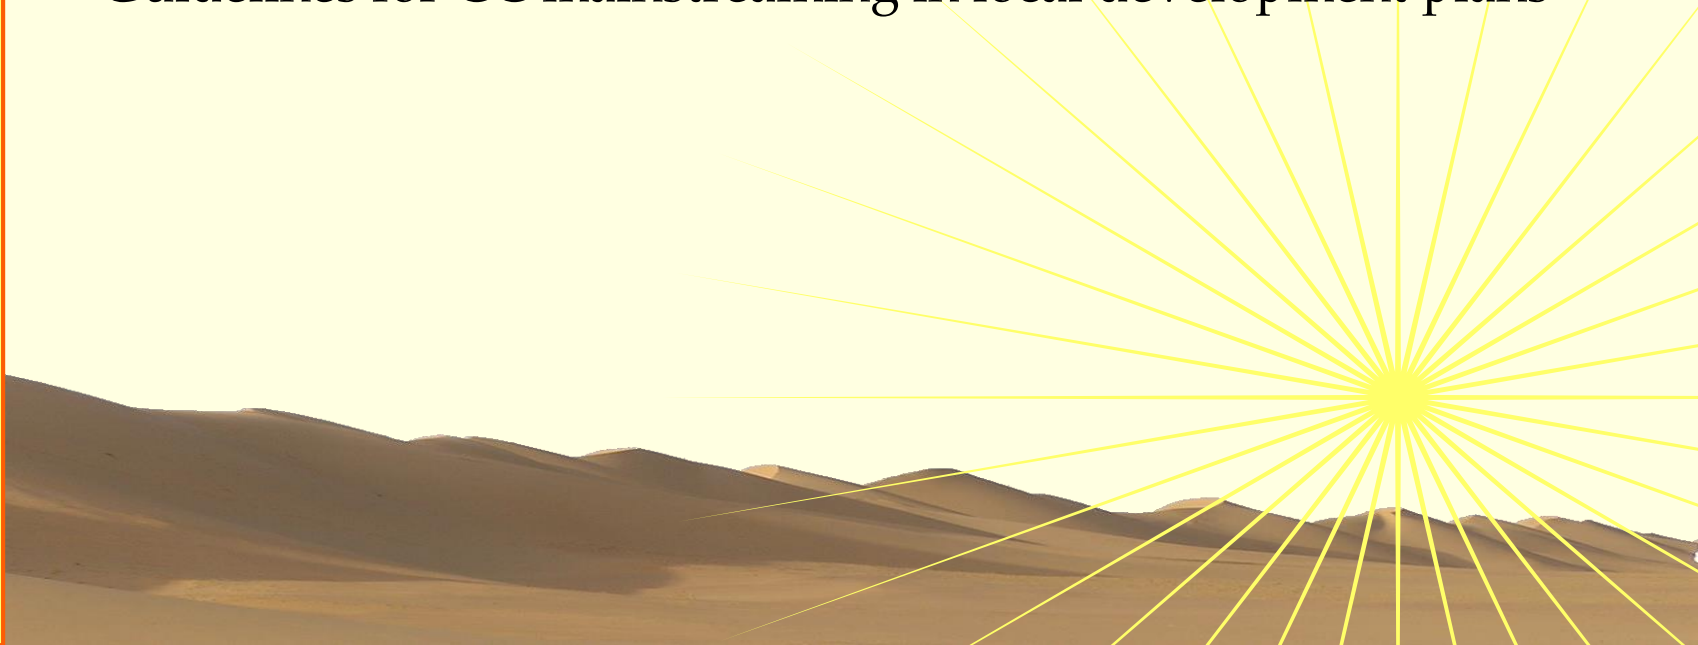

CONSEIL NATIONAL DE
L'ENVIRONNEMENT POUR UN
DEVELOPPEMENT DURABLE

METHODS AND TOOLS DEVELOPED

- CNEDD is the FP for the 3 Rio Conventions with 3 commissions to follow up. 3 commissions gather key technical sectors – much information can be collected
- Website collects all the studies and available information, strategies, policies and other documents
- Information, sensitisation and education are key: guidelines for trainers climate mainstreaming, modules for teachers, modules on CC in 7 local languages, dissemination of 4 good practices
- Guidelines for CC mainstreaming in local development plans

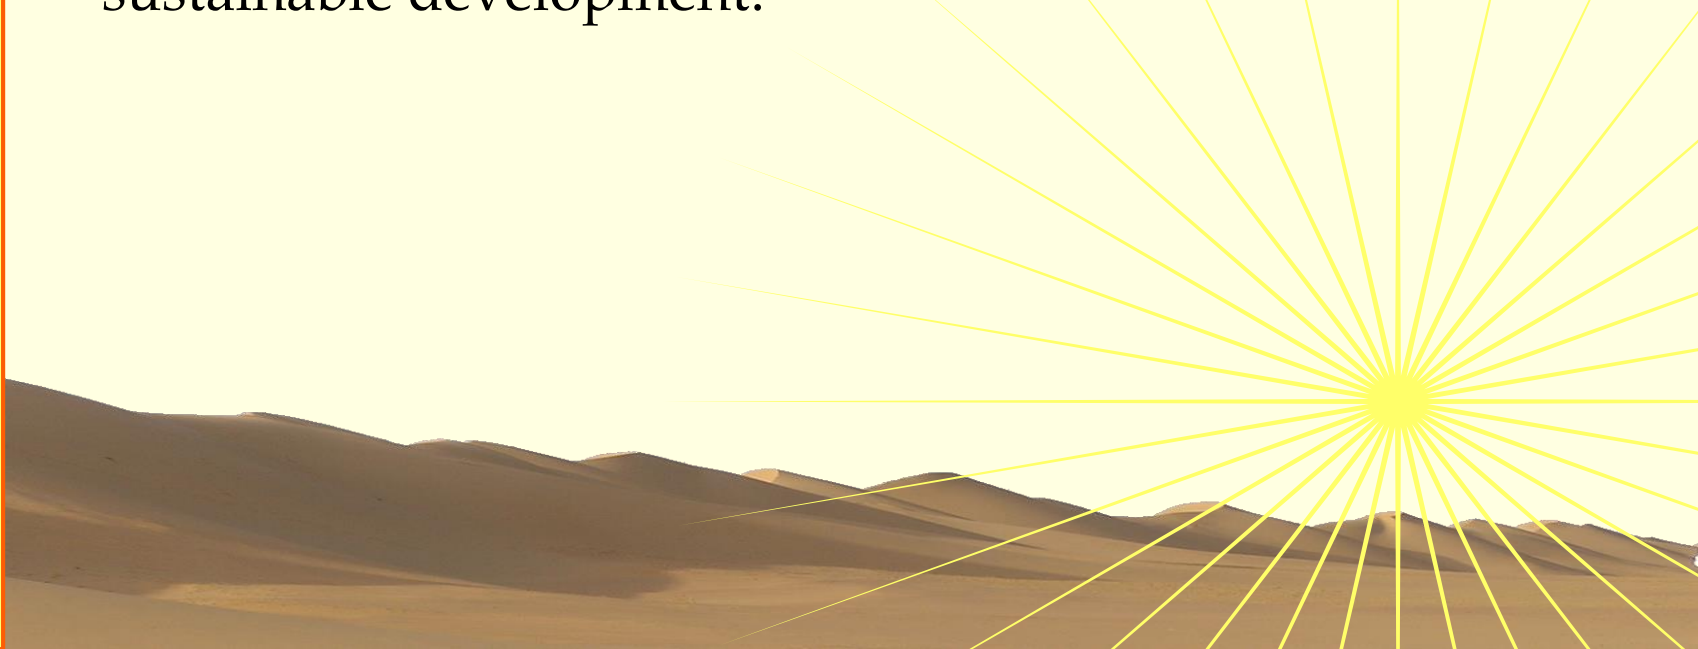

NAP PROCESS IN NIGER

- In order to identify long term solutions, Niger is working towards mainstreaming CC into its development planning and budgeting through the NAP process.
- This process will ensure the full mainstreaming of CC risks and opportunities into the “Vision 2035 – Niger SDDCI”, and help promote inclusive growth and strengthen sustainable development.

CONSEIL NATIONAL DE
L'ENVIRONNEMENT POUR UN
DEVELOPPEMENT DURABLE

MAIN CHALLENGES OF CCA MAINSTREAMING IN NIGER

With the support of the UNDP-UNEP NAP-GSP and its partners (UNITAR & GWP), Niger identified the main gaps and priority interventions to advance its NAP process;

With the support of the UNFCCC Secretariat, Niger has elaborated his road map for the formulation of the NAP;

With the support of the UNDP, the formulation of a proposal is on going.

Additional support will be required to address the following challenges:

- Limited institutional, functional and technical capacities
- Restricted financial, human and material resources
- Need to strengthen synergies and coordination between CCA initiatives
- Weak monitoring and evaluation mechanisms
- Insufficient availability, reliability and management of data

THANK YOU
