# Supplement to NAP Technical Guidelines: Considerations for GCF Proposal Development Coastal Adaptation & Nature-based Solutions

## Purpose:

- Clarify the entry points and financial instruments to enhance access to coastal and marine NbS opportunities in the GCF; and,
- Provide a coastal Ecosystem-based Adaptation (EbA) and NbS lens to the GCF's requirements and priorities, as well as the standards that ensure environmental integrity of nature-based approaches in coastal zones (i.e., EbA), to support high-quality proposal development
