

# UN4NAPs FORUM 2023

## Brief introduction to UN4NAPs

- UN-wide **rapid technical backstopping initiative** for **NAPs**,
- Launched in **2021** by the secretariat, in response to mandates for engaging international organizations in support of climate change adaptation.
- Offers a **platform for countries**, initially for LDCs and SIDS, to **communicate their needs for technical assistance** on an **ongoing basis**,
- Which the secretariat immediately channels to relevant partners from a **roster of more than 45 UN and intergovernmental organizations** for a prompt response.

## Categories of technical assistance

- Simple **technical queries** which can be answered by relevant agencies via email;
- Delivery of **specific data/knowledge products** (such as datasets, analytical tools, guidance material);
- **Longer-term capacity development/engagement** with the requesting country;
- **Review of draft NAPs** upon request by a country, based on agencies' area of expertise, with a view to enhance the coverage of issues to facilitate subsequent implementation;
- Facilitation of **integration of adaptation priorities** into country support strategies of different agencies and organizations.

## Current participating UN and intergovernmental organizations

Adaptation Fund	GWP	UN OCHA	UNESCO and UNESCO/IOC	UNU
ADB	ICIMOD	UN Women	UNESCWA	WFP
