Zusammenarbeit (GIZ)

#NAPExpo

Welcome!

Housekeeping Details

This side event will last approx.
90 minutes

This is a bilingual event, **English & Spanish interpretation** is available

There will be a **summary** of this event, live tweets, and photos are being taken

Speakers

Ms. Anne Hammill, Associate Vice President, Resilience, International Institute for Sustainable Development (**IISD**), Secretariat for the NAP Global Network (**NAP GN**)

Mr. Gonzalo Guaiquil, Climate Change Coordinator, Ministry of the Foreign Affairs, **Chile**

Mr. Thomas Lerenten Lelekoitien, Deputy Director - Climate Change Adaptation - Climate Change Directorate, Ministry of Environment and Forestry, Kenya

Ms. Carolina Leitao, Mayor, Peñalolen Municipality, **Chile**

The NAP Global Network

Our goal: Advance national adaptation planning and action in the Global South, via

Short- and longer-term technical support

South-South peer learning and exchange

Knowledge mobilization - NAP Trends

INSIGHT ARTICLE

Three Challenges in the Adaptation Process that are Opportunities for Vertical Integration

<https://napglobalnetwork.org/2023/03/three-challenges-adaptation-opportunities-vertical-integration/>

Vertical Integration

*In a nutshell, vertical integration for climate change adaptation is the **process of creating intentional and strategic linkages** between **local, subnational, national, transboundary, international, and global levels** during the **planning, implementation, and monitoring, evaluation, and learning of adaptation**. Vertical integration is therefore involved in all stages of the adaptation process and at all levels of governance.*

CHALLENGE #1: **MULTILEVEL COORDINATION**

OPPORTUNITY EXAMPLE:

Regional Climate Change Nodes of Colombia, a coordination mechanism, helping articulate national adaptation policies with subnational actors.

CHALLENGE #1: FINANCIAL FLOWS TO SUBNATIONAL LEVELS

OPPORTUNITY EXAMPLE:

Eswatini Environment Fund (EEF) aims to promote environmental sustainability at the grassroots level by providing small investments in adaptation projects at the local scale in the Kingdom of Eswatini.

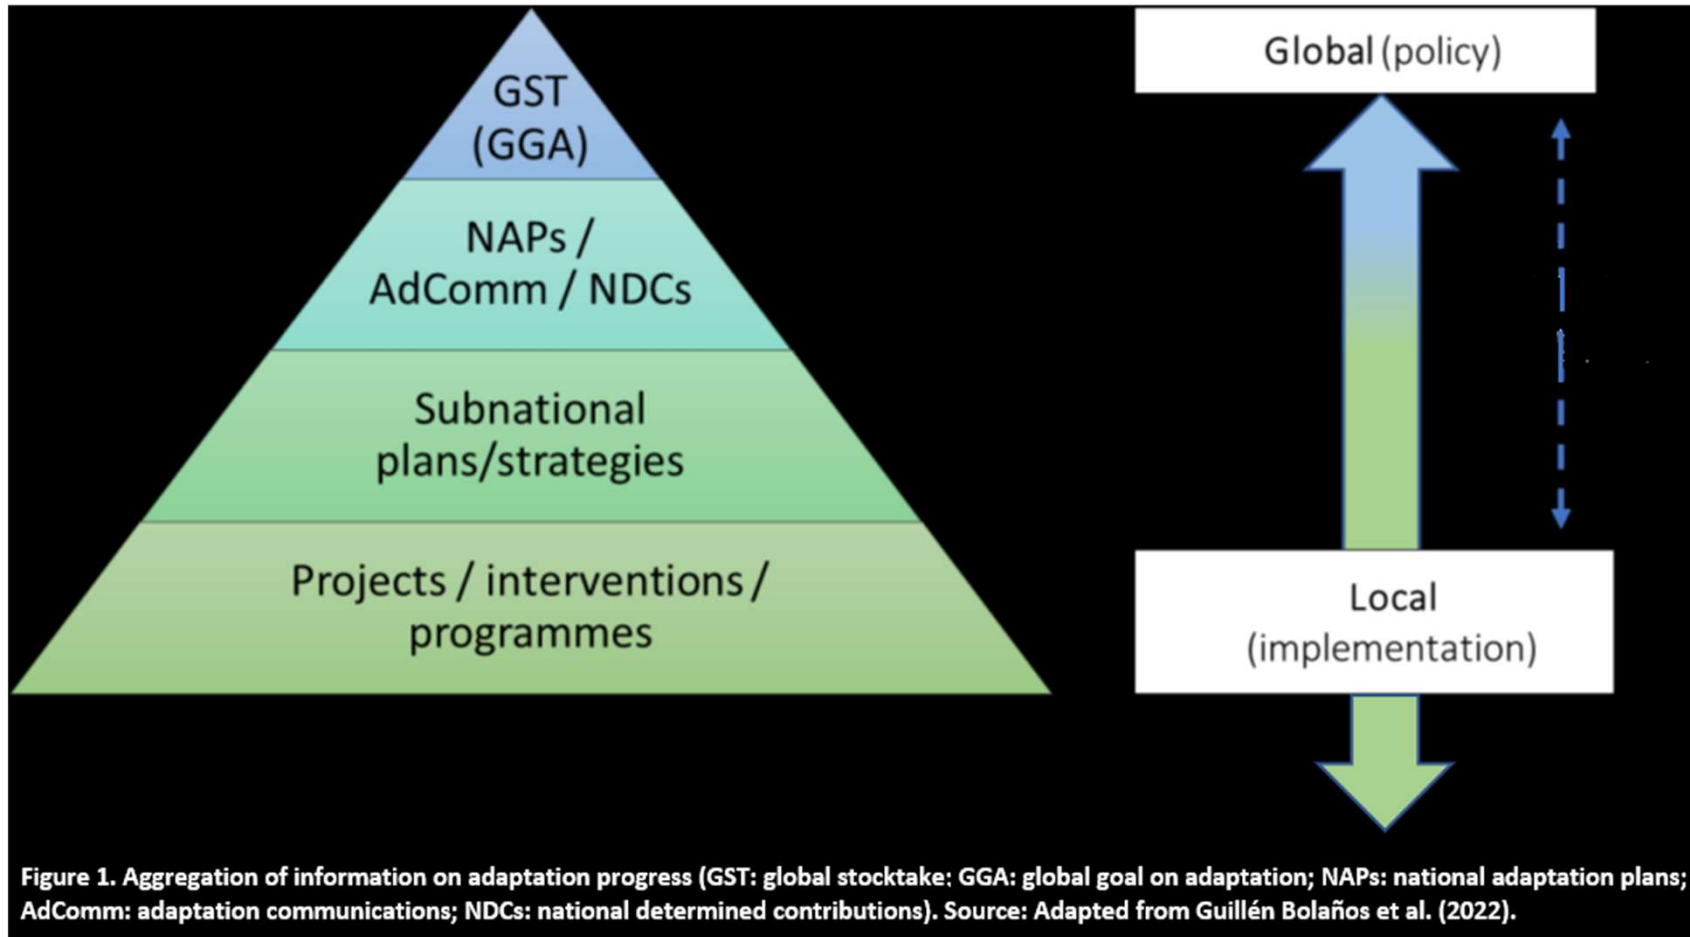

CHALLENGE #3: **CAPACITY OF SUBNATIONAL STAKEHOLDERS**

OPPORTUNITY EXAMPLE:

The Gambia built local capacities to integrate gender considerations and adaptation through a training of trainers targeting actors at subnational and local levels.

Vertical Integration in the NAP Process

NAP TRENDS

KEY FINDING

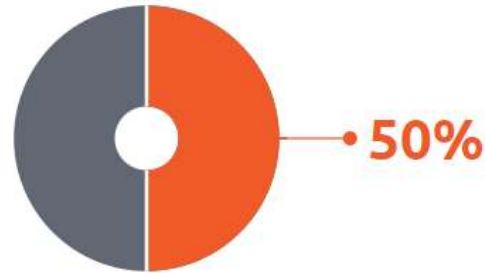

Vertical integration in the **National Adaptation Plans (NAPs)** submitted to the UNFCCC

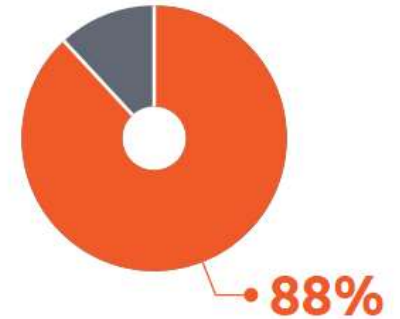

of NAPs that mention sub-national actors

Specific sub-national actors mentioned (# of NAPs)

of NAPs that mention mechanisms for vertical integration

of NAPs that mention local and/or community action

Thank you!
